PROFESSIONAL SUMMARY

Full-stack developer specializing in AI-integrated production systems, with a track record of shipping real-world software including a QR attendance platform serving 700+ users and two national hackathon placements (2nd Place, 1st Runner-Up). Founder of Cascade Development Group (CDG), an IT solutions startup in Iloilo. Open to internships, part-time, and remote roles.

EDUCATION

Bachelor of Science in Information Technology · University of San Agustin

2024 – Present (3rd Year) · Iloilo City, PH · Cumulative GWA: 1.85

Deputy Director for Technology, AWS User Group Iloilo · Web Development Lead, ITSA · Developer, ADS

WORK EXPERIENCE

Founder & AI Engineer · Cascade Development Group (CDG)

2026 - Present · Iloilo City, PH (Remote)

- Run an IT solutions startup delivering web development, database architecture, and technical consulting across the Visayas, managing full project lifecycle from scoping to deployment.
- Built ready-made demo websites for target industries and executed cold outreach to 20+ prospective businesses, converting leads via tangible proof of work.
- Designed and maintained the CDG platform (cdg-official.vercel.app) as a live client acquisition channel.

Project Manager & Lead Developer · PharmaTrack, University of San Agustin

May - June

- Led a full-stack QR attendance system for 700+ Pharmacy students, eliminating hardware and paper-based processes.
- Built a role-based platform (Student/Faculty/Admin) using Next.js 14, Supabase Auth, and PostgreSQL with row-level security.
- Delivered an Admin analytics dashboard with CSV/PDF export and system-wide attendance logs.

Solo Developer · Solmate / E-Ferry — 1st Runner-Up, Nexus Philippines Hackathon 2026

May - out of 17 teams

- Built a financial and telemetry dashboard bridging IoT hardware data with capital planning for electric ferry operations.
- Delivered a fully functional, deployed MVP in under 3 days using React/TypeScript, Recharts, and MapLibre GL.

AI/ML Lead · Marine-AI — 2nd Place, National AI Hackathon 2026

July - Open Professional Category, out of 24 teams

- Built a retrofittable IoT and AI advisory system for passenger boats, combining sensor telemetry with predictive safety analytics using Python, ONNX, and XGBoost.

Project Lead / Smart Contract Developer · SplitRails — Stellar APAC Hackathon 2026

July - Top 60

- Built a collaborative expense-splitting platform with on-chain escrow on the Stellar network, using Next.js, TypeScript, and Tailwind CSS.

Early IT Experience

IT Assistant (Contract), Telus Corporation — Mar 2025 — Configured systems and networks; resolved hardware/software issues.

IT Support, InnovaThink Corporation (200-hr OJT) — Jul 2024 — Windows desktop support; completed IT Operations certification.

Technical Support Intern, University of San Agustin (72-hr) — Jan 2024 — Deployed campus network infrastructure.

PERSONAL PROJECTS

Tuón — AI-Powered Spaced-Repetition Study Platform · Solo Developer & Founder Startup

August 2026 – Present

- Built a production app that turns notes into AI-generated flashcards/quizzes, scheduled via SM-2 spaced repetition, extended with exam-date-aware clamping for Philippine SHS/college/licensure exams.
- Built on Next.js 16, React 19, and Firebase, with 164 automated tests validating Firestore security rules as the real trust boundary.

Commit — Developer Productivity Platform · Solo Developer

June 2026

- Built a Markdown code journal, task manager, and Pomodoro tool on Next.js 15, Supabase, and Clerk auth.

Famly — Collaborative Family Financial Tracker · Solo Developer

June 2026

- Built a PWA tracking tuition, savings, and debt ledgers with real-time Supabase sync and offline fallback.

CORE SKILLS & TOOLS

Languages & Frameworks: TypeScript · JavaScript · Python · Java · SQL · React · Next.js · Node.js

Backend, Data & Cloud: Supabase · Firebase · PostgreSQL · MySQL · Vercel · REST APIs · Clerk

AI & Automation: RAG · Prompt Engineering · ONNX · XGBoost · Gemini/Claude API · Cursor · Claude Code

Tooling: Tailwind CSS · Git & GitHub · Notion

CERTIFICATIONS

AWS AI Practitioner (Udacity)

AWS Foundations: Machine Learning Basics (AWS Training)

RAG Strategy & Execution (Udemy)

Advanced Scrum Master (Agile Enterprise)

Project Management – Waterfall & Agile (Udemy)

Design Thinking Guide (Udemy)

IT Operations (InnovaThink)
