PROFESSIONAL SUMMARY

Full-Stack Developer and IT Solutions Founder with a track record of shipping real-world systems including a QR attendance platform serving 700+ users and a hackathon-winning IoT dashboard. Founder of Cascade Development Group (CDG), Iloilo. 1st Runner-Up, Nexus Philippines Hackathon 2026. Proficient in TypeScript, Next.js, Supabase, and Python. Open to internships, part-time, and remote roles.

WORK EXPERIENCE

Founder & AI Engineer · Cascade Development Group (CDG)

2026 – Present · Iloilo City, PH · Remote

- ▶ **Cascade Development Group (CDG)** solutions startup delivering web development, database architecture, and technical consulting to clients across the Visayas operating solo across the full business lifecycle from scoping to deployment.
- ▶ Architected and shipped end-to-end client solutions using Next.js, TypeScript, Supabase, and Vercel — owning the complete stack from schema design and REST API development to polished front-end interfaces.
- ▶ Designed and maintained the official CDG company platform (cdg-official.vercel.app) serving as a live product portfolio and active client acquisition channel.
- ▶ Established structured project management workflows using Notion and GitHub enabling sprint-based delivery cycles and transparent timelines across client engagements.

Project Manager & Lead Developer · PharmaTrack — University of San Agustin, Pharmacy Department

2025 · Iloilo City, PH

- ▶ Lead a full-stack QR-based attendance system for **700+** Pharmacy students — eliminating all physical hardware dependencies and replacing manual paper-based processes entirely.
- ▶ Built a role-based access platform with three distinct portals (Student, Faculty, Admin) using Next.js 14 App Router, Supabase Auth, and PostgreSQL with row-level security policies.
- ▶ Delivered a full Admin analytics dashboard with CSV/PDF export, system-wide attendance logs, and user management providing department leadership with live operational visibility.

Full-Stack Developer · 1st Runner-Up · Solmate / E-Ferry — Nexus Philippines Hackathon

May 21–23, 2026 · Philippines

- ▶ Built **E-Ferry (Solmate)**, a web-based financial and telemetry dashboard acting as the digital brain for the E-Bangka bridging hardware IoT data with capital planning for electric ferry operations.
- ▶ Earned **1st Runner-Up** at the Nexus Philippines Hackathon: Hacking the Future of Energy competing against university-level teams with a fully functional, deployed MVP delivered in under 3 days.
- ▶ Integrated real-time telemetry feeds into a React/TypeScript dashboard using Recharts and MapLibre GL, demonstrating cross-domain ability across IoT, geospatial mapping, and financial analytics.
- ▶ Led end-to-end solution design under competition time constraints from architecture to live deployment on Vercel showcasing rapid prototyping and high-pressure delivery.

IT Assistant (Contract) · Telus Corporation

March 2023 · Iloilo City, PH

- ▶ Set up, configured, and maintained computer systems and local area networks to ensure operational readiness across the organization.
- ▶ Resolved hardware and software issues efficiently minimizing downtime and ensuring continuous productivity for end users.

IT Support Intern · InnovaThink Corporation Philippines

July 2023 · Iloilo City, PH

- ▶ Provided direct technical support for Windows desktop environments diagnosing and resolving system configuration, software, and network connectivity issues.
- ▶ Completed a formal Certificate of Completion in IT Operations, demonstrating professional proficiency across hardware support, system diagnostics, and network troubleshooting.

Technical Support Intern · University of San Agustin

January 2024 · Iloilo City, PH

- ▶ Deployed and configured network routers and infrastructure across multiple campus buildings establishing reliable campus-wide connectivity.
- ▶ Coordinated physical infrastructure rollout across departments, developing strong skills in network topology, cable management, and IT project execution.

CORE SKILLS & TOOLS

Languages & Frameworks: TypeScript · JavaScript · Python · Java · SQL · React · Next.js · Node.js · Express · HTML5/CSS3
Backend, Data & Cloud: Supabase (Auth + PostgreSQL) · Firebase · Vercel · REST APIs · Clerk · PostgreSQL · MySQL · PLpgSQL
Design, Tooling & DevOps: Tailwind CSS · Figma · Git & GitHub · Notion (PM)

PERSONAL PROJECTS

Commit — Developer Learning & Productivity Platform · Solo Developer

2026 · [commit-beta.vercel.app](#)

- ▶ Built a comprehensive platform designed to help developers learn, collaborate, and streamline their workflow — combining a Markdown code journal, task management, and Pomodoro focus sessions.
- ▶ Shipped with Next.js 15, TypeScript 5, Supabase, PostgreSQL, and Clerk auth — demonstrating full product ownership from UX design through backend engineering to live deployment.

BinSense — IoT Smart Waste Monitoring · Project Manager

2025 · [GitHub](#)

- ▶ Built an IoT solution that monitors bin fill levels using Arduino UNO, ESP8266, and sensor arrays — automatically optimizing waste collection routes to reduce unnecessary trips.
- ▶ Developed the Python data pipeline bridging sensor input with a web-based monitoring dashboard, demonstrating hardware-software integration across embedded systems and cloud backends.

Famly — Collaborative Family Financial Tracker · Solo Developer

2026 · [GitHub](#)

- ▶ Designed a dark-themed PWA tracking tuition assessments, savings milestones, debt ledgers, and family project proposals — solving a real household financial visibility problem.
- ▶ Implemented real-time Supabase sync for multi-device collaboration with PWA offline fallback, reflecting strong product intuition and self-driven initiative.

EDUCATION

Bachelor of Science in Information Technology · University of San Agustin

2024 – Present (2nd Year) · Iloilo City, PH

Cumulative GWA: 1.85 - Second Year Level

Senior High School (Gr. 11–12) · University of San Agustin · Sept 2023 – May 2024

Elementary – Grade 7 · Philippine International School in Buraydah, Saudi Arabia · July 2010 – May 2019

CERTIFICATIONS

- ▶ Project Management – Waterfall & Agile · Udemy · 2024
- ▶ Project Management 101 – DUAL Certificate · Udemy · 2024
- ▶ Design Thinking Guide for Successful Professionals · Udemy · 2024
- ▶ Certificate of Completion in IT Operations · InnovaThink Corporation · 2023
- ▶ Udacity - AWS AI Practitioner · 2026

ACHIEVEMENTS & RECOGNITION

- ▶ **1st Runner-Up** — Nexus Philippines Hackathon: Hacking the Future of Energy (May 2026) — recognized for the E-Ferry/Solmate IoT-financial dashboard by an industry panel.
- ▶ Founded **Cascade Development Group (CDG)** at 2nd-year university level — a functioning IT solutions startup serving real clients.
- ▶ Delivered PharmaTrack for **700+** active users at an institutional university department — a production-grade system built as an undergraduate student.
- ▶ Maintained a **1.85 cumulative GWA** while simultaneously founding a company, shipping 6+ production projects, and competing in national-level hackathons.
- ▶ International educational background attended Philippine International School in Buraydah, Saudi Arabia (Grade 1–7), reflecting cross-cultural adaptability and global exposure.
